

8(a) Streamlined Technology Acquisition Resource for Services (STARS) III

8(a) STARS III enables federal contracting offices to earn small-disadvantaged (SDB) credit while saving time and money through pre-competes, easy-to-use, and streamlined ordering procedures. It provides flexible contract terms, a standard fee, and limited ability for protest.

About AgiliTech

AgiliTech designs and delivers solutions that keep our nation safe from harm and enable our government to efficiently conduct their business. We apply over 20 years of experience to work directly with clients to solve their most difficult problems using our proven methods including agile development and DevSecOps approaches.

Services We Provide

- Agile & DevSecOps Application Development
- Data Management
- IT Modernization and Emerging Technologies
- Cloud and Infrastructure Optimization
- Biometrics and Identity Management
- Cybersecurity

Introduction to 8(a) STARS III

8(a) STARS III is a multiple-award indefinite-delivery/indefinite-quantity (MA-ID/IQ) contract designed to provide federal agencies with innovative information technology (IT) services-based solutions from award-winning 8(a) small businesses. Using 8(a) STARS III will enable you to access 8(a) firms through an established contract vehicle instead of traditional open-market methods—saving time and taxpayer money.

Best-in-Class

As a Best-in-Class contract, 8(a) STARS III is designated by the Office of Management and Budget as a preferred governmentwide solution.

Contract Scope

The scope of the 8(a) STARS III Governmentwide Acquisition Contract (GWAC) is centered on North American Industrial Classification System (NAICS) code 541512, but may include other NAICS codes that are predominately IT services. These may include, but are not limited to, 541511, 541513, 541519, and 518210. The contract offers IT services ranging from simple to complex and services-based solutions such as IT help-desk support, information assurance, cybersecurity, artificial intelligence, and more.

In addition to the general IT services scope, 8(a) STARS III includes two focused scope sub-areas: Emerging Technologies (ET) and OCONUS Places of Performance. 8(a) STARS III prime contractors in the ET scope sub-area have experience providing evolving state-of-the-art emerging technologies such as technological convergence, robotic process automation, autonomic computing, and more. Prime contractors in the OCONUS scope sub-area have experience providing IT services in an Outside the Continental United States (OCONUS) location.

How we do it

Mission-Driven

We put the mission first and apply our first-hand experience and understanding to bring value to our clients. Our teams focus on identifying innovations that enhance our clients' ability to meet their mission; we always look to find the best long-term solution rather than the easy solution.

Agile

Agile development is engrained in our culture to bring features to our clients faster and to make changes as we go. We choose approaches--such as Scrum, Kanban, and SAFe--that match the needs of the project and the items to be addressed.

DevSecOps

We unify development and operations to increase our ability to deliver. We implement continuous integration and continuous delivery practices that allow us to identify problems faster, improve software quality and security, and save time.

Security

We consider security from the beginning of the development process and build it in from the start. Our team of Information System Security Officers ensure implementation and maintenance of security controls for systems that are essential to homeland security.
